

WHAT DID YOU DO TO FIGHT CLIMATE CHANGE?

THIS! Is What We Did

Help Us Meet Our \$40,000 Match!

Mission Statement:

To help grow an intergenerational movement strong enough to break the power of the fossil fuel industry and stimulate the effective, drastic action needed to spur climate justice and give future generations a chance for a decent life through:

1. A powerful educational experience
2. A welcoming community
3. Easy-access on-ramps to effective action

Our Programs:

Effective Climate Conversations (ECC)

Anxiety into Action: Helping Young People Cope with the Climate Crisis

The Week

Move Your Money

Our Impact:

*"I've done so many programs offered by **THIS! Is What We Did**. My goal is to complete all of their actions in 2025. The information provided is great, and the volunteers are so encouraging, compassionate, and friendly. They are eager to make a difference and be a force for good."*

"Taking your course of Effective Climate Conversations is the best thing I have done thus far as a person who cares about the planet. I feel inspired, empowered, and committed to having conversations about the climate with as many people as I can."

What We Will Do with the Money:

We are a research-informed, grassroots-led organization with a focus on practical education that uplifts people and strengthens the solidarity between them. Our next initiative, **Earth's Athletes**, will accomplish this same goal with an emphasis on inspiring athletes to **"join the greatest team you'll ever be part of."** We need to raise more money to launch this program, so please donate to help our efforts!
